

Dr. John M. Flach received his Ph.D. (Human Experimental Psychology) from The Ohio State University in 1984. John was an assistant professor at the University of Illinois from 1984 to 1990 where he held joint appointments in the Department of Mechanical & Industrial Engineering, the Psychology Department, and the Institute of Aviation. In 1990 he joined the Psychology Department at Wright State University. He served as department chair from 2004 – 2013. He currently holds the rank of Professor. He teaches graduate and undergraduate courses in the areas of applied cognitive psychology and human factors. John is interested in general issues of coordination and control in sociotechnical systems. Specific research topics have included visual control of locomotion, interface design, decision-making, and sociotechnical systems. John is particularly interested in applications of this research in the domains of aviation, medicine, highway safety, and assistive technologies. In addition to more than 175 scientific publications, John is a co-author of three books: *Control Theory for Humans* (with Rich Jagacinski); *Display and Interface Design* (with Kevin Bennett); and *What Matters?* (with Fred Vorhooorst). John has also recently begun a blog, titled Perspicacity <http://blogs.wright.edu/learn/johnflach/>.
