

Michael Vidulich is a Senior Research Psychologist at the Air Force Research Laboratory's Airman Systems Directorate's Applied Neuroscience Branch. He served as the Technical Advisor for the Warfighter Interface Division from 2006 to 2013. He is also a member of the adjunct faculty of the Wright State University Department of Psychology, where he has taught since 1989. Previously, he was a research psychologist at National Aeronautics and Space Administration (NASA) Ames Research Center. He received a B.A. (Psychology) from the State University College of New York at Potsdam, a M.A. (Psychology) from The Ohio State University, and a Ph.D. from the University of Illinois at Urbana-Champaign. His research specializes in cognitive metrics for human-machine interface evaluation and adaptation. He co-edited the volume, *Principles and Practice of Aviation Psychology* and three volumes of the *Advances in Aviation Psychology* series.
